8.0 Megapixel JPEG2000 Color 180° HD Panoramic Dome Camera

Avigilon's end-to-end surveillance solutions deliver image detail no other system can match. Avigilon Control Center software, featuring High-Definition Stream Management[™] (HDSM[™]) technology combined with our broad range of megapixel cameras (from 1 MP to 29 MP) provide unprecedented clarity—while effectively managing storage and bandwidth requirements. Our components are scalable and can work together in an end-to-end system, or can be customized to create your own powerful and cost-effective solution.

The innovative JPEG2000 HD panoramic dome camera is just one way Avigilon can help provide the very best monitoring and protection.

JPEG2000 HD panoramic dome cameras feature four 2 MP sensors for a total resolution of 8 MP. A single installation provides high-resolution 180° coverage with lenses that are all pre-focused for nofuss installation. This camera is ideal for monitoring indoor and outdoor environments for sectors such as education, banking, retail, accomodation, and hospitality or for any location where installation points are limited.
